

90-3S-U-/I-measuring module

U-/I-measuring module for system applications 90-3S

- Function test 0 .. 50/500 V

Functional testing

- Voltage measurement : 0 .. 500 V, 0 .. 50,0 V
- Measurement accuracy - display: +/-1% v.M. +/- 2dig.
- Measurement accuracy - analog output: +/- 0,6% v.M. +/- 10mV
- Measuring accuracy

Equipment features

- Calibration sockets on the front-panel

Interfaces

- digital-/ analog interface
- Analog interface

Important options

- Measurement range switchover via interface
- Further current and voltage measurement ranges are available on request (optional)

90-3S-U-/I-measuring module

- Limit value module (optional)
-

Equipment data

- Mains voltage: 230 +/- 10%
 - Safety class: I
 - Slide in technique: 24
 - Height : 3 HU
-

Order data

- Order description: U-/I-measuring module
- Order number: 90-3S.3
