

## 92-5K-Resistance measuring module

### Resistance measuring module 92-5K

- Resistance measurement 200mOhm- 2MOhm
- Temperature compensation

---

#### Display / Operation

- menu-assisted LCD graphic display, 128x64 dots, with backlight
- programming by means of rotary encoder with pressure point
- 200 program positions are available for the storage of individual parameter blocks

---

#### Equipment features

- Menu-driven operation via VIT technology with rotary encoder and graphic display
- 8 test voltages from 200mOhm - 2MOhm

---

#### Interfaces

- RS 232C-interface
- digital interface

## 92-5K-Resistance measuring module

---

### **Equipment data**

- Mains voltage: 0 - 230 +10% -5% (49 .. 61 Hz)
  - Safety class: I
  - Slide in technique: 36
  - Height : 3 HU
- 

### **Order data**

- Order description: Resistance measuring module
- Order number: 92-5K.3
