

90-2E-Insulation tester

Insulation resistance tester 90-2E with stabilized test voltage:

- Insulation resistance test 500 VDC
- Measurement ranges 0 .. 10/100 MOhm

Insulation resistance measurement

- Measurement range: 0 .. 10/100 MOhm
- Voltage fixed: 500 VDC
-

Display / Operation

- analog instrument

Interfaces

- digital-/ analog interface

Important options

- electrical outlet for other countries (optional)
-

90-2E-Insulation tester

Equipment data

- Mains voltage: 0 - 230 +10% -5% (49 .. 61 Hz)
- Safety class: I
- Slide in technique: 36
- Height : 3 HU

Order data

- Order description: Insulation tester 90-2E
- Order number: 90-2E.3
